FILLING IN THE DOPING CONTROL FORM

When you are selected for a Doping Control you will be presented with a form like this to sign and complete.

- Fill in your Name, Nationality and Event so it is legible.
- You will be notified as to the type of test. In this example, it is an In-Competition, Blood and Urine test.
- The DCO/Chaperone will identify themselves and sign the form.
- If it is in competition, confirm the competition details, date and time of notification.
- Sign the form: by doing so you are providing consent that you have been notified and will provide the sample, and understand that you should proceed immediately to the Doping Control Station. You have the right to take a representative/interpreter with you. You will be chaperoned at all times until you leave the Doping Control Station.
- A failure to sign the form/provide a sample may constitute an Anti Doping Rule Violation (ADRV).

[illegible]

INSIDE THE DOPING CONTROL STATION.

You and your representative will need to sign into the Doping Control Station (DCS).

- Section 1: Complete this confirming your details, testing location and ID.
- Section 2: Confirm your Sport, Discipline, In-Competition Test, Arrival time into the DCS, Date, your Sex and the Mission Code (the DCO will complete this). Check and confirm the sample code for the blood sample and the time it was drawn. If you completed a partial sample for urine, check and complete that section. Check and complete the urine sample code numbers, volume of urine provided, time the urine was sealed and the Specific Gravity recorded. Carefully and clearly record any medication or supplements taken in the last seven days. You may use a supplementary form if more space is needed.
- Section 3: Record any comments on the procedure that you may have. You, your athlete representative, the BCO and DCO must all sign and date the form with the time completed. Read carefully that you accept all the points in the box.
- You keep the pink form, the IAAF will get the white copy, whilst the yellow form goes to the Lab (with no personal details) and the Testing Authority has the green one.

Please write legibly and in CAPITAL letters / Ecrire lisiblement en majuscules

IAAF
DOPING CONTROL FORM
FORMULAIRE DE CONTRÔLE ANTIDOPAGE

1. ATHLETE INFORMATION • RENSEIGNEMENTS SUR L'ATHLETE

COMPLETING THE BLOOD SAMPLING FORM

If you are asked for a blood sample there is another form to complete.

- Section 1: Confirm and check all Athlete Information.
- Section 2: Complete the details and sign to confirm that you understand and consent to everything, understanding that failure to sign or provide a sample may be seen as an ADRV.
- Section 3: Complete fully, check the time of collection, all code numbers and carefully and correctly answer all four questions with full details. Declare any medication or supplements taken in the last seven days.
- Section 4: Add any comments or concerns that you may have about the procedure. Your athlete representative, the DCO and BCO will sign and date the form, and you must sign confirming you understand the rules and do not contest any aspect of the procedure.
- You keep the pink form, the IAAF will get the white copy, the yellow goes to the Lab (with no personal details) and the Testing Authority has the green form.

Please write legibly and in CAPITAL letters

I understand that the information I have given on this document is correct
 I confirm that, subject to the provisions of the IAAF Anti-Doping Regulations, I have given my consent to a blood sample being taken from me
 I understand that, by signing this form, I am giving my consent to a blood sample being taken from me
 I understand that I must report to the doping control station immediately
 I understand that failure to sign this form and/or provide a sample may be regarded as an anti-doping rule violation
 I understand that the purpose of the blood sampling has been explained to me
 I understand that, by signing this form, I am giving my consent to a blood sample being taken from me
 I understand that I must report to the doping control station immediately
 I understand that failure to sign this form and/or provide a sample may be regarded as an anti-doping rule violation

The form required for an Out-of-Competition blood test is the same as the previous one.

You should take the same care in completing the forms and conserve your pink form at least until you receive notification of the negative test. Check for both that no personal details are readable on the Yellow Laboratory copy.
